Moreover, not a Miner moved beyond second base, There wasn't a pass in Stohs' game, and he rarely put up more than two inaccurate pitches to a batsman.

While Stohs held off the Miners, the Williamsport Tigers sprang into a first-place tie with the Scranton club by defeating Wilkes-Barre 7-2 and 3-1. The other teams were rained out, Binghamton at Albany and Hartford at Utica.

Today's Talk WAA IN STATE

All of us need a certain amount of exercise to keep us fit and well I am referring to the body. But there is another exercise that is most important — exercise, as Epictetus has stated that he took - "in patience, in gentleness, in meekness."

The mind needs constant exercise to keep it alert and watchful. Contact with those whom we meet from day to day, and with those rare spirits whom we only see occasionally, exercises our love, or admiration, and day our desire to grow and rise higher

in ideals and purposes. No exercise is so stimulating to the mind as books and a love of nature. Go anywhere and there are interests. We should all own the traveling eye - the eye that keeps journeying to new objects. This results in the exercise of our intelligence, improving it and enlarging

The athlete does not confine his exercise to his body when he trains. He also exercises his temper, his quiry courage and his will. The results of this latter exercise stay with him long after his days of event winning. Can anyone measure the spiritual value of such exercise?

All sorrow, all disappointment, all temporary failure are exercises in character. So is illness. What noble and unselfish characters we discover among those who are bedridden or who have become permanent shutins! There appeared at the Cleveland a year later.
